

- Delivery checklist
- Thermometer
- Food Safety Record Booklet

Process

1. Inspect all deliveries on arrival.
 - a. Examine fresh and frozen items for signs of spoilage or damage.
 - b. Ensure refrigerated items are at the correct temperature.
 - c. Check pantry and paper products for any damage or discrepancies.
2. Check the delivery against the delivery invoice for accuracy.
 - a. Verify all items listed are present and in good condition.
3. Use a calibrated thermometer to check temperature rules are met
 - a. Refrigerated good delivered at 4 or below
 - b. Frozen good delivered at -115 or below
 - c. Record temperature in your [Food Safety Record Booklet](#)
4. Immediately transfer perishable items to appropriate storage areas:
 - a. Fresh items: Refrigerate or use as soon as possible.
 - b. Frozen items: Store in the freezer immediately.
 - c. Refrigerated items: Place in the refrigerator without delay.
 - d. Pantry items: Store in designated dry storage areas.
 - e. Paper products: Store in a clean, dry area.
5. Use the [Supply Chain Typeform](#) to document any quality or delivery issues.
6. Place all invoices in your file folder to organise weekly reconciliation.
